

**SECTION 11
BUSINESS DISTRICTS**

11.1 PURPOSE:

The Business Districts set forth herein are established to protect public health; to promote public safety, comfort, convenience and the general welfare; and to protect the economic base of the Village and the value of property. These general purposes include the following objectives:

To promote the most desirable use of land in accordance with a well-considered plan so as to ensure that adequate space is provided in appropriate locations for the various types of business uses, thereby protecting and strengthening the economic base of the Village.

To place in separate zoning districts those businesses which may create noise, odors, hazards or unsightliness, or those which may generate excessive traffic.

To establish neighborhood convenience centers in or adjacent to residential areas in order to provide efficient and convenient services for daily or frequent needs of the people of the Village.

To encourage the grouping of compatible businesses in appropriate locations which will draw mutually interchangeable modes of trade, thus promoting public convenience and business prosperity.

To arrange commercial centers such that traffic and pedestrian congestion will be minimal.

To provide for the establishment of off-street parking facilities, permitted and required, so as to alleviate traffic congestion and promote shopping convenience and business prosperity.

This zoning is in place only for those five parcels with B-3 zoning prior to the annexation. It incorporates the uses allowed under B-3 zoning in the County as of November 1991.

11.8 B-5 DOWNTOWN DISTRICT

The B-5 Downtown District is designed to promote the development of the area commonly known as Johnsburg's Downtown. The intent of the district is to create a combination of business, cultural and passive/active recreational uses that will blend in harmoniously with existing and future residential uses in the area. Development within the district contributes significantly to the Village's overall image. Proper use of property in the Downtown District will offer social and cultural benefits to the citizens of Johnsburg. A diverse blend of business, office, recreational and residential uses is desirable and crucial to the District's success. Flexibility in development criteria which helps to accommodate the construction of new buildings and the renovation of existing structures in areas that are limited by lot size and existing setbacks is encouraged. Uses permitted in this Zoning District are set forth in Table 1, entitled Permitted Uses.

The Downtown District is generally located along Johnsburg Road between Spring Grove Road and Hayden Avenue; Fairview Avenue between Church Street and Chapel Hill Road; Chapel Hill Road from Bay Road to Johnsburg Road; Church Street from Spring Grove Road to Johnsburg Road and St. Johns Avenue from Johnsburg Road to Church Street. (See attached Map Exhibit A)

Because of the existing building lines already established in this area and the special nature of the lots, consideration can be given to setbacks normally required in the Business District Zoning. Any structures proposed to be built in this area require a plan review by Village staff and architectural review by the Architectural Review Committee to accommodate the special needs of these lots.
