April 24, 2025

# To: The Village President, Members of the Village Board of Trustees, and Citizens of the Village of Johnsburg, Illinois

Illinois State Law requires that all general-purpose local governments publish a complete set of financial statements within six months of the close of the fiscal year. These financial statements must conform to generally accepted accounting principles (GAAP) and be audited in accordance with generally accepted accounting standards by certified public accountants licensed by the State of Illinois. It is with pleasure that the Annual Comprehensive Financial Report (ACFR) for the Village of Johnsburg, Illinois is presented for the year ended April 30, 2024.

The 2024 ACFR complies with the new financial reporting model developed by the Governmental Accounting Standards Board (GASB) and is intended to provide additional information not previously available in the Village's financial statements.

The annual financial report consists of the Village of Johnsburg management staff's representations concerning the finances of the Village. Management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management has continued to focus on the internal controls that are designed to protect the Village's assets from loss, theft or misuse and to compile sufficiently reliable information for the preparation of the Village's financial statements in conformity with GAAP.

Management continues to revise processes, implement internal controls, and establish new financial policies that allow us to provide reasonable controls within our means in order to prepare financial statements that are free of any material misstatements. Management asserts that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

Village Trustees

### Fiscal Management

Annually the Village adopts a budget that defines its legal spending authority. Departments submit requests to the Village Administrator so that a budget may be prepared. The requested budget document is prepared by fund, function, and activity. The budget is presented to the Finance Committee then the Village Board for review. The Village Board holds a public meeting and adjusts the requested budgeted amounts if necessary to reflect anticipated operations and capital spending for the delivery of services offered by the Village. The Village Board may amend the budget. The legal level of budgetary control (i.e. the level at which expenditures cannot exceed the budgeted amount) is established at the fund level.

The Village of Johnsburg's financial statements have been audited by Lauterbach & Amen, LLP, a firm licensed by the State of Illinois as certified public accountants with specialization in local government accounting. The goal of the independent audit is to provide reasonable assurance that the financial statements of the Village of Johnsburg are free from material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures shown in these financial statements; assessing the accounting principles and significant estimates used; and evaluating the overall financial statement presentation. In addition, the auditors prepared a list of management comments that outline areas where the Village management can further improve internal controls and accounting procedures. The administration, along with the finance staff, appreciates and welcomes the auditors' recommendations for internal control improvement.

### Fiscal Report

The independent auditor concluded that there was a reasonable basis for rendering an opinion that the Village of Johnsburg's financial statements for the fiscal year ended April 30, 2024, are fairly presented in conformity to GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The financial reports are presented in accordance with the "GASB" reporting model requirements. GAAP require that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of a Management Discussion and Analysis (MD&A). This letter of transmittal will not repeat the financial overview and analysis, which is provided in the MD&A, but encourages the reader to review this important section of the financial statements for a comprehensive overview and analysis of how the Village has fared over the last fiscal year.

### Village Profile

The Village of Johnsburg was settled in 1841 and incorporated in 1956 and has a population of 6,335 as of the 2020 census. The Village is located in McHenry County and governed by a Village President and Board of Trustees. The Village President and the Village Board set the Village's policies. The Village Administrator is responsible for implementing the policies and directives of the Village President and the Village Board.

The Village provides a full range of services. Johnsburg's public safety activities include police protection and numerous community education and engagement opportunities. Public Works provides street and right-of-way maintenance and repair, and Parks and Facilities provide building and park maintenance services. Water service including a treatment plant and sanitary sewer system are functions that are included in the Waterworks & Sewerage Fund.

The Village also assists with various community events, which are blended into the Village's departmental program budgets and are primarily self-supported or supported by donations. These include the annual Holiday Magic Parade and Festivities, Easter Egg Hunt, Memorial Day Parade, Fishing Derby, Party in the Burg and Celebration in the Park. In addition, the Village is accountable for the Johnsburg Police Pension Fund, managed by a legally separate Board, and four Special Service Areas that are administered by independent Trustees (Amalgamated Bank of Chicago).

### Economic Condition and Outlook

The Village's 2023 EAV increased by 8%. This is the ninth consecutive increase in EAV. The Village's unemployment rate, according to the American Community Survey five year estimates from 2017-2021 was 4.7%. The Consumer Price Index at the end of April 2024 in the Chicago region area was 3.4%. The 2020 census reflects a per capita income of \$42,660, and median household income of \$116,556.

As a positive sign of continued economic recovery, residential and commercial development and Johnsburg's EAV continue to increase. Despite these positive economic occurrences, the Village remains conservative with its future revenue projections.

At the close of FY 2024, COVID-19 cases appeared to be contained along with the economic impacts associated with the pandemic, however the Village remained mindful of a potential ongoing financial implications and continued to align its budget and spending accordingly.

### **Economic Development**

Although primarily residential in nature, Johnsburg has placed a significant emphasis on economic development within the community. In FY 2024 the Village continued to see an increase in business growth and new residential development welcoming 12 new businesses and issuing permits for 12 new residential units and a new 49-unit workforce housing townhome development. A total of 359 building permits were issued in FY 24 which included major commercial renovation projects to accommodate 3 new restaurants. The Village, in cooperation with the Johnsburg District 12 School District, Johnsburg Library District and McHenry Township Fire Protection continued the suspension of impact fees in an effort to keep new home costs affordable and bring development interest to the community.

### Major Initiatives

### Maintaining Roadways

The Village utilizes the PAVER rating system to rate the condition of its roadways. In fiscal year 2022, the Village re-evaluated all of its roadways through a process that incorporates the use of imagery equipment to detail conditions below the surface. Upon completion of the analysis, a detailed plan was established to help the Village plan for the long term maintenance needs of its roadways. In FY2024, the Village resurfaced 3.0 miles of roadway and pursued an aggressive patching program to extend the life of its roadways. Additional progress was made on the Village's street sign replacement program and several roadway culvert replacements, re-ditching and shouldering projects were completed by public works department employees.

Work continued on the Church Street Road Realignment Project and was substantially complete at the close of FY 2024 with only sidewalk installation and final restoration remaining. The project, which is supported by grant funds administered through the Illinois Department of Commerce and Economic Opportunity, is expected to be completed in FY 2025.

Progress was also made on the Sunnyside Beach Road Improvement Project. The project is supported by a Special Service Area (SSA) Bond which was pursued at the direction of the residents residing on the road who desired to upgrade their private road to public road standards. The debt service on the bond is paid by the residents through a special assessment on their real estate tax bill. During FY 2024, construction began and was substantially complete at the close of the fiscal year.

Construction got underway on the Riverside Drive Road Improvement Project in FY 2024 beginning with tree removal in the early Spring. The project is partially funded with Surface Transportation Program and Rebuild Illinois funds and includes the replacement of the storm structures under the Riverside Drive bridge, resurfacing of the roadway and the installation of a sidewalk and bike path to safely separate pedestrian and bicyclist movement from vehicular traffic. The project is expected to be completed in FY 2025.

### Parks and Facility Improvements

During FY 2024, the Village pursued non-highway vehicle path extensions and various maintenance upgrades at several parks throughout the Village.

### Sewer and Water System Improvements

Design engineering wrapped up and bids were let in FY 2024 on the East Side Sewer Extension Project. The project provides for the backbone infrastructure necessary to serve the Village's east sewer service area. It includes the installation of 1400 feet of carrier pipe under the river, force main and a regional lift station/pumping facility. The improvements will serve a 125-acre service area and provide capacity for over 500 residential and commercial users. The project is largely supported by State and Local Fiscal Recovery Funds and a grant administered through the Department of Commerce and Economic Opportunity. Construction on the project is expected to begin in FY 2025.

### Awards

Fiscal year 2024 was the eighth consecutive year the Village was awarded the Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association of the United States and Canada (GFOA). In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Annual comprehensive financial report. The report must also satisfy both generally accepted accounting principles and applicable legal requirements. The Village Board, Finance Department and staff were beyond proud to receive the award and recognition for the sixth consecutive year.

A Certificate of Achievement is valid for a period of one year. We believe that our report again meets the requirements of the Certificate of Achievement Program and are submitting it to the GFOA to determine its eligibility for a certificate. It is our hope that the Village of Johnsburg's Finance Department staff will continually meet the level of excellence required to be granted this award for many years in the future.

### Acknowledgements

The preparation of this report, and the confidence with which it is presented, would not have been possible without the dedicated services of the finance staff and our independent auditors Lauterbach & Amen, LLP.

In closing, we would also like to thank the President and the Board of Trustees, and all department heads for their support in maintaining the highest standards of professionalism and transparency in the management of the Village's finances.

Respectfully submitted,

Claydon E. Safiaku

Claudett E. Sofiakis Village Administrator

### INDEPENDENT AUDITOR'S REPORT

This section includes the opinion of the Village's independent auditing firm.

### **INDEPENDENT AUDITORS' REPORT**

April 24, 2025

The Honorable Village President Members of the Board of Trustees Village of Johnsburg, Illinois

### **Report on the Audit of the Financial Statements**

### Opinion

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Johnsburg, Illinois (the Village), as of and for the year ended April 30, 2024, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Johnsburg, Illinois, as of April 30, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Village, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Village's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Village's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison schedules, and supplementary pension and other post-employment benefit (OPEB) schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Village of Johnsburg, Illinois April 24, 2025

### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Johnsburg, Illinois' basic financial statements. The other supplementary information and supplemental schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, other supplementary information and supplemental schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 24, 2025, on our consideration of the Village's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Village's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Village's internal control over financial reporting and compliance.

Lauterbach & Amen, LLP
LAUTERBACH & AMEN, LLP

## MANAGEMENT'S DISCUSSION AND ANALYSIS

The Management's Discussion and Analysis ("MD&A") is an element of the financial reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements - Management's Discussion and Analysis - for State and Local Governments. In this area the Village of Johnsburg (the Village) presents its discussion and analysis of the Village's financial performance and provides an overall review of the Village's financial activities for the fiscal year-end April 30, 2024. The management of the Village encourages readers to consider the information presented herein in conjunction with the basic financial statements to enhance their understanding of the Village's financial performance.

Certain comparative information between the current year and the prior year is required to be presented in the MD&A. This comparative information is included in this report.

### **Financial Highlights**

- The Village's total net position, as of April 30, 2024 was \$13,845,597.
- The Village's General Fund reported a decrease of \$502,951 in fund balance for the year.
- The Village's actual General Fund revenues were less than total budgeted revenues by \$139,763, and actual expenditures were less than total budgeted expenditures by \$792,902.
- The Village's capital and infrastructure assets decreased by \$501,926 in the Governmental activities and decreased by \$412,244 in the Waterworks and Sewerage Fund.

For purpose of this analysis, the Village considers the Operating Fund to include the General Fund.

### **Overview of the Financial Statements**

This annual report consists of four parts: management's discussion and analysis (this section), the basic financial statements, and the required supplementary information. The basic financial statements include two kinds of statements that present different views of the Village:

- The first two statements are *government-wide financial statements* that provide both short-term and long-term information about the Village's overall financial status.
- The remaining statements are *fund financial statements* that are similar to the historical reporting concept and focus on individual parts of the Village, reporting the Village's operations and in more detail than the government-wide statements.

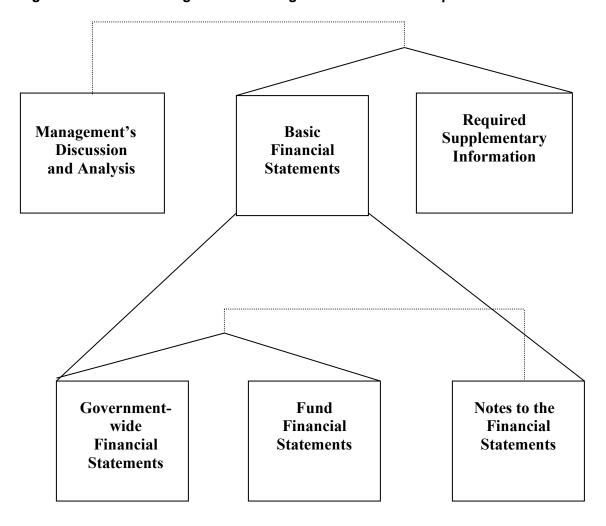

The fund financial statements have the following three primary components.

- The *governmental fund* statements tell how basic services were financed in the short term, as well as what remains for future spending.
- Fiduciary fund statements provide information about the financial relationships in which the Village acts solely as trustee or agent for the benefit of others.
- Proprietary fund statements provide short- and long- term financial information about the activities the Village operates like a business. The Village operates its Waterworks and Sewerage Fund as a business which is accounted for as a proprietary fund.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements.

The following figure summarizes the major features of the Village's financial statements, including the portion of the Village's activities they cover and the types of information contained. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

### Organization of the Village of Johnsburg Annual Financial Report

The following figure summarizes the major features of the Village's financial statements, including the portion of the Village's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

# Major Features of the Government-wide and Fund Financial Statements

Government-wide Statements		Fund Financial Statements		
Scope	Entire Village (except fiduciary funds)	Governmental Funds The activities of the Village that are not proprietary or fiduciary, such as general fund	Proprietary Funds Activities the Village operates similar to private businesses	Fiduciary Funds Instances in which the Village administers resources on behalf of someone else, such as Police Pension Trust monies
Required financial statements	Statement of net position	Balance sheet	Statement of net position	Statement of fiduciary net position
	Statement of activities	Statement of revenues, expenditures, and changes in fund balance	Statement of revenues, expenses & changes in fund net position  Statement of cash flows	Statement of changes in fiduciary net position
Accounting basis and measurement focus.	Accrual accounting and economic resources focus	Modified accrual accounting and current financial focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, short-term and long-term	Generally, assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long- term liabilities included	All assets and liabilities, both financial and capital, and short- term and long-term	All assets and liabilities, both short-term and long-term; funds do not currently contain capital assets, although they can
Type of inflow/ outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable	All revenues and expenses during year, regardless of when cash is received or paid	All additions and deductions during the year, regardless of when cash is received or paid

### **Government-wide Financial Statements:**

The government-wide financial statements are designed to provide readers with a broad overview of the Village's financial position and operations as a whole, in a manner similar to a private-sector business.

The statement of net position presents information on all of the Village's assets/deferred outflows and liabilities/deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Village is improving or deteriorating.

The statement of activities presents information showing how the Village's net position changed during the fiscal year being reported. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, on the accrual basis of accounting, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods.

 To assess the Village's overall financial health, consideration also needs to be given to other non-financial factors such as changes in the Village's property tax base, the condition of its facilities and other similar items.

In the government-wide financial statements, the Village's activities are categorized as follows:

- Governmental activities Most of the Village's basic services including administration, financial services, police and public works are included. Property taxes, telecommunications taxes and shared state tax distributions finance the majority of these services.
- Business-type activities The Village includes waterworks and sewerage operations.

### Fund Financial Statements:

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Village uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. This accounting presentation also provides information prepared on a consistent method with prior years to facilitate comparative analysis. All of the funds of the Village can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds – These funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on (1) how cash and other financial assets that can readily be converted to cash, flow in and out of government operations and (2) the balances left at year-end available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the Village's programs. Because this information does not encompass the additional long-term asset and debt focus of the government-wide statements, additional information at the bottom of the governmental funds statements explains the relationship (or differences) between them.

Village of Johnsburg Management's Discussion and Analysis For the Year Ended April 30, 2024

The financial content of the government-wide financial statements differs from the financial content of the traditional fund-based financial statements primarily due to:

- Use of the full accrual basis of accounting in the government-wide financial statements versus the modified accrual basis of accounting in the fund-based financial statements.
- Recognition in the government-wide financial statements of the cost and related current and accumulated depreciation of long-term assets.
- Recognition in the government-wide financial statements of the remaining liability for the principal payments due that are related to long-term debt obligations.

Governmental funds are further summarized by a major funds category. The Village has determined that all funds are considered major, based on the significance that each fund has toward the financial and functional impact on the Village. Information is presented separately in the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances for the combined total governmental funds and for each summary category of funds.

The Village also adopts an annual budget for each of the funds listed above. A budgetary comparison statement has been provided for each fund to demonstrate actual results compared with this budget.

*Proprietary fund* - The Village's services for which the Village charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide statements. The Village's enterprise funds are the same as its business-type activities but provide more detail and additional information, such as cash flows.

Fiduciary funds - The Village is the trustee, or fiduciary, for certain assets that belong to others, such as the deferred compensation plan. The Village is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The Village excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operation.

### Notes to the Financial Statements:

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund-based financial statements.

### Other Information:

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Village's operations.

### Financial Analysis of the Village as a Whole

<u>Statement of Net Position</u>: The following summary data is compared with data from the preceding year for both governmental activities and business-type activities. The following provides a summary of the Village's Statement of Net Position as of April 30, 2024 and 2023:

	<b>Governmental Activities</b>		<b>Business-Type Activities</b>		Totals	
	2024	2023	2024	2023	2024	2023
Assets:						_
Current assets	\$ 4,368,956	\$ 4,570,232	\$ 2,834,447	\$ 2,784,170	\$ 7,203,403	\$ 7,354,402
Capital assets (less depreciation)	13,004,924	13,506,850	7,699,304	8,111,548	20,704,228	21,618,398
Total Assets	17,373,880	18,077,082	10,533,751	10,895,718	27,907,631	28,972,800
Deferred Outflows of Resources:	2,569,620	2,974,797	93,064	115,958	2,662,684	3,090,755
Total Assets and Deferred						
Outflows of Resources	19,943,500	21,051,879	10,626,815	11,011,676	30,570,315	32,063,555
Liabilities:						
Current liabilities	1,168,501	799,784	263,885	257,532	1,432,386	1,057,316
Noncurrent liabilities (long term debt)	8,183,880	8,724,842	3,127,121	3,348,964	11,311,001	12,073,806
Total Liabilities	9,352,381	9,524,626	3,391,006	3,606,496	12,743,387	13,131,122
Deferred Inflows of Resources:	3,112,762	3,444,114	868,569	869,686	3,981,331	4,313,800
Total Liabilties and Deferred						
Inflows of Revenues	12,465,143	12,968,740	4,259,575	4,476,182	16,724,718	17,444,922
Net Position						
Net investment in capital assets	8,112,744	8,342,899	4,447,295	5,017,412	12,560,039	13,360,311
Restricted	1,761,679	1,789,632	360,987	360,987	2,122,666	2,150,619
Unrestricted (Deficit)	(2,396,066)	(2,049,392)	1,558,958	1,157,095	(837,108)	(892,297)
Total Net Position	\$ 7,478,357	\$ 8,083,139	\$ 6,367,240	\$ 6,535,494	\$ 13,845,597	\$ 14,618,633

<u>Total Net Position</u>: Please note that the amounts reported for governmental activities in the audit statement above are different from the governmental funds because (1) capital assets used in governmental activities are not financial resources, as they are in business, and are not reported as assets in governmental funds, (2) long-term liabilities, including bonds payable are not due in the current period and therefore not reported as liabilities in the funds. The result is that the total net position for governmental activities is \$7,478,357 and \$6,367,240 for business-type activities.

<u>Restricted Net Position:</u> A portion of the Village's total net position is considered restricted. The Special Service Area and Motor Fuel Tax are special revenue funds; by law, funds held in a special revenue fund are restricted to the purpose of the fund.

The funds have restricted balance as follows: Special Service Area, \$1,035,592; Motor Fuel Tax, \$449,307; Police, \$86,310; Parks, \$172,251, Tax Increment Financing \$18,219 and water/sewer capital \$360,987. The Village's total restricted net position at the end of the fiscal year totaled \$2,122,666, which represents a decrease over FY 2023. The decrease is primarily attributable to the expense of Special Service Area Funds and Park Funds planned projects.

<u>Statement of Activities:</u> The following is a summary of the Village's changes in net position for the year ending April 30, 2024 and 2023 for governmental activities and business-type activities:

	Governmental Activities		<b>Business-Type Activities</b>		Totals	
	2024	2023	2024	2023	2024	2023

Change in Net Position	(604,782)	(97,783)	(168,254)	(197,283)	(773,036)	(295,066)
Net Position - Beginning	8,083,139	8,180,922	6,535,494	6,732,777	14,618,633	14,913,699
Net Position - Ending	\$ 7,478,357	\$ 8,083,139	\$ 6,367,240	\$ 6,535,494	\$ 13,845,597	\$ 14,618,633

<u>Changes in Net Position</u>: The Village's net position, in total, decreased by \$773,036 to \$13,845,597 in fiscal year 2024.

Net position of the Village's Governmental Activities decreased by 7.5 percent (\$7,478,357 in 2024 compared to \$8,083,139 in 2023). Unrestricted net position, the part of net position that can be used to finance day-to-day operations without constraints, totaled (\$2,396,066) at April 30, 2024.

Net position of Business-Type Activities decreased by 2.6 percent (\$6,367,240 in 2024 compared to \$6,535,494 in 2023).

The Village's total combined revenues were \$7,968,954, which is an increase of \$731,756 in comparison to the previous year. The total cost for all programs and services was a combined \$8,741,990, which is an increase of \$1,209,726 in comparison to the previous year.

Governmental Activities Revenue was higher in FY 2024 primarily due to an increase in Operating Grants and Contributions and Charges for Services. Expenses in General Government increased by \$243,270 primarily due to an increase Engineering and Miscellaneous expenses. Public Safety expenses increased by \$266,907 primarily due to an increase in Police Pension Contributions resulting from both FY 2023 and FY 2024 contributions being reflected in FY2024. The increase in Highways and Street expenses resulted from an increase in road improvement projects. The Parks and Building expenses increased by \$27,933, as a result of miscellaneous park improvements. Property taxes accounted for 14.8 percent of the Village's governmental activities revenue, while other taxes made up 58.3 percent of the Village's governmental activities revenue.

Business-Type Activities Revenue decreased in FY2024 primarily as a result of a decrease in the collection of sewer connection fees. The decrease in Waterworks and Sewer expenses resulted from a decrease in engineering and maintenance costs compared with the prior year.

### **Normal Impacts and Changes in Net Position**

Reflected below are eight common (basic) impacts on revenues and expenses:

### Revenues

<u>Economic Condition:</u> Reflects a declining, stable or growing economic environment and has a substantial impact on state income, sales, and telecommunications tax revenues as well as public spending habits for items such as building permits and user fees including volumes of usage.

<u>Increase/Decrease in Village Approved Rates</u>: While certain tax rates are set by statute, the Village Board has authority to impose and periodically increase/decrease rates (water, sewer, building permit fees, vehicle stickers etc.). The Village's property taxes are subject to tax caps which generally limit Village increases to the lesser of Consumer Price Index or 5.0%.

<u>Changes in Patterns in Inter-Governmental and Grant Revenue and Other Recurring and Non-Recurring Grants</u>: Certain recurring revenues (state shared revenues, etc.) may experience significant changes periodically while non-recurring (or one-time) grants are less predictable and often distorting in their impact on year to year comparisons.

<u>Market Impacts on Investment Income:</u> The Village's investment portfolio is managed with an approach utilizing competitive pricing, laddered maturities up to one year for term investments, and diversity of investments. Market conditions may cause investment income to fluctuate more than would occur with more short-term composition.

### **Expenses**

<u>Changes in Programs:</u> Within the functional expense categories (General Government, Public Safety, Public Works, etc.) individual programs may be added, deleted or expanded to meet changing community needs.

<u>Changes in Authorized Personnel:</u> Changes in service demand may cause the Village Board to increase/decrease authorized staffing.

<u>Salary Increases (Annual Adjustments and Step Increases):</u> The Village strives to maintain a competitive salary range position in the marketplace.

<u>Inflation:</u> While overall inflation appears to be down, the Village is a major consumer of certain commodities and services which typically experience inflation at a rate that can be significantly different from CPI. Examples of such items include insurance, fuel, electricity and operating supplies.

### Financial Analysis of the Village's Funds

The financial performance of the Village reflects the financial climate of the country as a whole and Illinois in particular. Expenditures and revenues are monitored carefully. Financial updates and projections are shared with the Board of Trustees regularly. Account balances for all funds are at a healthy level for the year ended April 30, 2024.

### General Fund

- Fund balance decreased by \$502,951, resulting in an ending fund balance of \$1,044,622.
  - The decrease in fund balance resulted from capital project expenditures.

### Motor Fuel Tax Fund

- Fund balance increased by \$14,153, resulting in an ending fund balance of \$449,307.
  - o The increase in fund balance is a result of MFT funds being carried over for a future project.

### Golf Course Fund

- Fund balance increased by \$3,652, resulting in an ending fund balance of (\$45,183).
  - The increase in fund balance resulted from the use of excess revenues over expenditures to offset previous demolition and improvement costs.

### Tax Increment Financing Fund

- Fund balance increased by \$1,483, resulting in an ending fund balance of \$18,219.
  - o The increase in fund balance was associated with the timing of the disbursements from the fund.

### Special Service Area Fund

- Fund balance decreased by \$29,856, resulting in an ending fund balance of \$1,035,592.
  - The decrease in fund balance resulted from expenditures associated with the SSA #33 Road Improvement Project.

### Land and Building Fund

- Fund balance decreased by \$96,722, resulting in an ending fund balance of (\$346).
  - The decrease in fund balance resulted from the completion and closeout of the David G.
     Dominguez Municipal Center building expansion project.

### **Budgetary Highlights**

The Village Board did not amend the Budget and Appropriation Ordinance during the fiscal year. General Fund revenues collected were lower than those budgeted for in FY 2024 by 2.0%. This was primarily attributable to actual grant receitps being lower than budgeted. General Fund revenues were \$6,882,203, approximately 14.7% higher than FY 2023.

General Fund expenditures and transfers totaled \$7,385,154. Expenditures, excluding transfers, closed out 11.7% lower than budgeted, reflecting the Village's fiscal responsibility and conservative nature with taxpayer dollars.

### **Capital Assets**

<u>Capital Assets:</u> The historic cost, net of accumulated depreciation, of capital assets of the Village as of April 30, 2024 is as follows:

	Governr	Governmental Activities Business-Typ		
	2024	2023	2024	2023
Assets:				
Land	\$ 1,964,93	37 \$ 1,964,937	226,000	226,000
Land Improvments	388,09	94 416,957	-	-
Furniture, Fixtures & Equipment	752,64	706,919	-	-
Buildings, Wells and Improvements	4,173,82	29 4,259,382	1,508,797	1,588,153
System and Roadway Infrastructure	5,725,41	7 6,158,655	5,964,507	6,297,395
Totals	\$ 13,004,92	24 \$ 13,506,850	\$ 7,699,304	\$ 8,111,548

Fiscal year 2024 is the eighteenth year the Village has been required to report the year-end historic cost, net of accumulated depreciation, of capital assets, and the related depreciation expenses for the year, in its Village-wide financial statements. These amounts were derived from a detailed independent appraisal process.

The Village's major capital additions for fiscal year 2024 included furniture, fixtures, and equipment of \$182,802.

### Infrastructure Assets

Historically, a government's largest group of assets (infrastructure - streets, storm sewers, etc.) had not been reported nor depreciated in governmental financial statements. GASB 34 required that these assets be valued and reported within the Governmental column of the Government-wide Statement of Net Position. Additionally, the government must elect to either (1) depreciate these assets over their estimated useful life or (2) develop a system of asset management designed to maintain the service delivery potential to near perpetuity. If the government develops the asset management system (the modified approach), which periodically (at least every third year), by category, measures and demonstrates its maintenance of locally established levels of service standards, the government may record its cost of maintenance in lieu of depreciation. The Village has elected to depreciate assets over their useful life. If a project is considered maintenance (a recurring cost that does not extend the asset's original useful life or expand its capacity) the cost of the project will be expensed. An "overlay" of a street will be considered maintenance whereas a "rebuild" of a street will be capitalized.

See Note 3 to the financial statements for additional information about Capital Assets.

### **Debt Outstanding**

<u>Long-term debt:</u> At year end, the Village had \$4,750,000 in long-term debt outstanding within governmental activities, and \$3,250,000 in long-term debt outstanding within business-type activities.

	Governmen	tal Activities	Business-Type Activities		
	2024 2023		2024	2023	
Debt instrument:					
General obligation bonds	\$ 4,750,000	\$ 5,015,000	\$ 3,250,000	\$ 3,455,000	

See Note 3 to the financial statements for additional information about long-term debt.

Village of Johnsburg Management's Discussion and Analysis For the Year Ended April 30, 2024

### **Economic Factors**

The Village's elected and appointed officials considered many factors when setting the fiscal year budget and the associated property tax levy and charges for services. One of those factors is the economy. Even though an increase in development and EAV is being experienced, the Village continues to be faced with the same economic challenges shared by many other local municipalities such as inflation and the impacts brought about by material and supply chain shortages.

The Village continues to embrace a conservative approach to its financial operations due to the ongoing uncertainty of economy conditions. With financial policies and procedures such as setting aside funds for its capital improvement plan and an ongoing commitment to building reserves, the Village feels very comfortable that its operations will be sustainable into the foreseeable future.

### **Requests for Information**

This financial report is designed to provide our citizens, customers, investors and creditors with a general overview of the Village's finances and to demonstrate the Village's accountability for the money it receives. In addition to this report, the Village prepares an internal Annual Financial Report which is available on our website at www.johnsburg.org. Any questions concerning this report or requests for additional financial information should be directed to Claudett E. Sofiakis, Village Administrator - Village of Johnsburg 1515 Channel Beach Avenue, Johnsburg, Illinois 60051.

### **BASIC FINANCIAL STATEMENTS**

The basic financial Statements include integrated sets of financial statements as required by the GASB. The sets of statements include:

- Government-Wide Financial Statements
- Fund Financial Statements

Governmental Funds

Proprietary Fund

Fiduciary Funds

In addition, the notes to the financial statements are included to provide information that is essential to a user's understanding of the basic financial statements.

# Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities - Governmental Activities

## For the Fiscal Year Ended April 30, 2024

Net Change in Fund Balances - Total Governmental Funds	\$ (609,971)
Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.	
Capital Outlays Depreciation Expense	182,802 (684,728)
Deferred outflows (inflows) of resources related to the pensions not reported in the funds	
Change in Deferred Items - IMRF	138,911
Change in Deferred Items - Police Pension	(115,443)
Change in Deferred Items - RBP	(36,997)
The issuance of long-term debt provides current financial resources to	
governmental funds, while the repayment of the principal on long-term	
debt consumes the current financial resources of the governmental funds.	
Change in Compensated Absences	9,298
Change in Net Pension Liability - IMRF	(80,774)
Change in Net Pension Liability - Police Pension	314,585
Change in Total OPEB Liability - RBP	3,948
Retirement of Debt	271,771
Changes to accrued interest on long-term debt in the Statement of Activities	
does not require the use of current financial resources and, therefore, are not	
reported as expenditures in the governmental funds.	 1,816
Changes in Net Position of Governmental Activities	 (604,782)

Notes to the Financial Statements April 30, 2024

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Village of Johnsburg, Illinois (the Village) was incorporated in 1956 and operates under a Trustee-Village form of government. The Village provides a full range of services including police protection, streets and roads, sanitation, health and social services, public improvements, planning and zoning and general administrative services. On November 19, 1991, the Village of Johnsburg annexed the surrounding unincorporated area of Johnsburg. On February 18, 1992, the name of the Village was changed from the Village of Sunnyside to the Village of Johnsburg.

The government-wide financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant of the Village's accounting policies established in GAAP and used by the Village are described below.

#### REPORTING ENTITY

The Village is a municipal corporation governed by an elected mayor and six-member Board of Trustees. The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units are, in substance, part of the primary government's operations, even though they are legally separate entities. Thus, blended component units are appropriately presented as funds of the primary government. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is both legally and substantively separate from the government. Management has determined that there is one fiduciary component unit that is required to be included in the financial statements of the Village as pension trust fund and there are no discretely component units to include in the reporting entity.

#### Police Pension Employees Retirement System

The Village's sworn police employees participate in the Police Pension Employees Retirement System (PPERS). PPERS functions for the benefit of these employees and is governed by a five-member pension board. Two members appointed by the Village's President, two elected police employees, and the Village Treasurer constitute the pension board. The participants are required to contribute a percentage of salary as established by state statute and the Village is obligated to fund all remaining PPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the Village is authorized to approve the actuarial assumptions used in the determination of contribution levels. Although it is legally separate from the Village, the PPERS is reported as if it were part of the primary government because its sole purpose is to provide retirement benefits for the Village's police employees. The PPERS is reported as a fiduciary fund, and specifically a pension trust fund, due to the fiduciary responsibility exercised over the PPERS.

Notes to the Financial Statements April 30, 2024

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

#### **BASIS OF PRESENTATION**

#### **Government-Wide Financial Statements**

The Village's basic financial statements include both government-wide (reporting the Village as a whole) and fund financial statements (reporting the Village's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type.

The Village's public safety, highway and streets, parks and building, and general administrative services are classified as governmental activities. The Village's waterworks and sewerage services are classified as business-type activities.

In the government-wide Statement of Net Position, both the governmental and business-type activities columns are: (a) presented on a consolidated basis by column, and (b) reported on a full accrual, economic resource basis, which recognizes all long-term assets/deferred outflows and receivables as well as long-term debt/deferred inflows and obligations. The Village's net position is reported in three parts: net investment in capital assets; restricted; and unrestricted. The Village first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the Village's functions and business-type activities (general government, public safety, highways and streets, parks and building, etc.). The functions are supported by general government revenues (property, road and bridge, telecommunication, utility, and other taxes, certain intergovernmental revenues, charges for services, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, which include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

The net costs (by function or business-type activity) are normally covered by general revenue (property taxes, sales taxes, income taxes, interest income, etc.). This government-wide focus is more on the sustainability of the Village as an entity and the change in the Village's net position resulting from the current year's activities.

#### **Fund Financial Statements**

The financial transactions of the Village are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets/deferred outflows, liabilities/deferred inflows, fund equity, revenues and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories. Nonmajor funds by category are summarized into a single column. GASB Statement No. 34 sets forth minimum criteria (percentage of the assets/deferred outflows, liabilities/deferred inflows, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. The Village electively added funds, as major funds, which either had debt outstanding or specific community focus. The nonmajor funds are combined in a column in the fund financial statements.

Notes to the Financial Statements April 30, 2024

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

#### **BASIS OF PRESENTATION** – Continued

#### **Fund Financial Statements** – Continued

A fund is considered major if it is the primary operating fund of the Village or meets the following criteria:

Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and

Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The various funds are reported by generic classification within the financial statements. The following fund types are used by the Village:

#### **Governmental Funds**

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Village:

General Fund is the general operating fund of the Village. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund is a major fund.

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes. The Village maintains three major special revenue funds, the Motor Fuel Tax Fund, which is used to account for the maintenance and construction of streets and roads as approved by the Illinois Department of Transportation. The Golf Course Fund is used to account for revenue received, per contractual agreement, from the management company responsible for operations at the Village owned Chapel Hill Golf Course. The Tax Increment Financing fund is used to make annual payments to GenCap Johnsburg 73, LLC, the developer of the Bush School Redevelopment Project, to reimburse Project TIF Expenses in accordance with the terms of an agreement entered into between the Village and GenCap Johnsburg 73, LLC on April 7, 2020.

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by business-type/proprietary funds). The Village maintains two major capital projects funds. The Special Service Areas Fund (SSA #6, SSA #11, SSA #13, and SSA #15) is used to account for revenue from specific revenue sources that are legally restricted to expenditures for mowing and upkeep of certain special service areas. The Land and Building Fund is used to account for the proceeds of specific revenue for the Village's land and building acquisition.

Notes to the Financial Statements April 30, 2024

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

#### **BASIS OF PRESENTATION** – Continued

#### **Fund Financial Statements** – Continued

### **Proprietary Funds**

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The accounting principles generally accepted in the United States of America applicable are those similar to businesses in the private sector. The following is a description of the proprietary funds of the Village:

Enterprise Funds are required to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) establishes fees and charges based on a pricing policy designed to recover similar costs. The Village maintains one major enterprise fund. The Waterworks and Sewerage Fund is used to account for the provision of potable water and wastewater treatment services to the residents of the Village. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations and maintenance, financing and related debt service, billing and collection.

#### **Fiduciary Funds**

Fiduciary funds are used to report assets held in a trustee or custodial capacity for others and therefore are not available to support Village programs. The reporting focus is on net position and changes in net position and is reported using accounting principles similar to proprietary funds.

Pension Trust Funds are used to account for assets held in a trustee capacity for pension benefit payments. The Police Pension Fund accounts for the accumulation of resources to be used for retirement annuity payments to employees on the police force at appropriate amounts and times in the future. Resources are contributed by employees at rates fixed by law and by the Village at amounts determined by an annual actuarial study.

Custodial Funds are used to account for assets held by the Village in a purely custodial capacity. The Village maintains one custodial fund. The Special Service Areas Fund (SSA #27, SSA #28, SSA #32, and SSA #33) is used to account for the collection of property taxes within the special service areas and the payments of related special service area debt.

The Village's fiduciary funds are presented in the fiduciary fund financial statements by type (pension trust and custodial). Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, pension participants, etc.) and cannot be used to address activities or obligations of the Village, these funds are not incorporated into the government-wide statements.

Notes to the Financial Statements April 30, 2024

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

#### MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

#### **Measurement Focus**

On the government-wide Statement of Net Position and the Statement of Activities, both governmental and business-type activities are presented using the economic resources measurement focus as defined below.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate.

All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets/deferred outflows and liabilities/deferred inflows are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

All proprietary, pension trust funds, and custodial funds utilize an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets/deferred outflows and liabilities/deferred inflows (whether current or noncurrent) associated with their activities are reported. Proprietary, pension trust fund, and custodial fund equity is classified as net position.

#### **Basis of Accounting**

In the government-wide Statement of Net Position and Statement of Activities, both governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability/deferred inflow is incurred or economic asset used. Revenues, expenses, gains, losses, assets/deferred outflows, and liabilities/deferred inflows resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Notes to the Financial Statements April 30, 2024

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

#### MEASUREMENT FOCUS AND BASIS OF ACCOUNTING - Continued

#### **Basis of Accounting – Continued**

In applying the susceptible to accrual concept under the modified accrual basis, those revenues susceptible to accrual are property taxes, sales and use taxes, income taxes, licenses, interest revenue, and charges for services. All other revenues are not susceptible to accrual because generally they are not measurable until received in cash.

All proprietary, pension trust and custodial funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Village's enterprise funds are charges to customers for sales and services.

The Village also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

## ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY

#### **Cash and Investments**

Cash and cash equivalents on the Statement of Net Position are considered to be cash on hand, demand deposits, cash with fiscal agent. For the purpose of the proprietary funds "Statement of Cash Flows," cash and cash equivalents are considered to be cash on hand, demand deposits, cash with fiscal agent, and all highly liquid investments with an original maturity of three months or less.

Investments are generally reported at fair value. Short-term investments are reported at cost, which approximates fair value. For investments, the Village categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Notes to the Financial Statements April 30, 2024

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

## ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY – Continued

#### Interfund Receivables, Payables and Activity

Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

#### **Prepaids**

Prepaids are valued at cost, which approximates fair value. The costs of governmental fund-type prepaids are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaids in both the government-wide and fund financial statements.

#### Receivables

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivables balances for governmental activities include property taxes, sales and use taxes, income taxes, and grants. Business-type activities report utility charges as their major receivables.

#### **Capital Assets**

Capital assets purchased or acquired with original costs of \$5,000 or more, depending on asset class, are reported at historical cost or estimated historical cost. Contributed assets are reported at acquisition value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. General capital assets are long-lived assets of the Village as a whole. When purchased, such assets are recorded as expenditures in the governmental funds and capitalized. In the case of the initial capitalization of general infrastructure assets (i.e., those reported by the governmental activities) the government chose to include all such items regardless of their acquisition date. Infrastructure such as streets, traffic signals and signs are capitalized. The valuation basis for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement costs.

Notes to the Financial Statements April 30, 2024

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

## ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY – Continued

#### Capital Assets - Continued

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation basis for proprietary fund capital assets are the same as those used for the general capital assets. Donated capital assets are capitalized at acquisition value on the date donated.

Depreciation on all assets is computed and recorded using the straight-line method of depreciation over the following estimated useful lives:

Land Improvements	15 - 20 Years
Furniture, Fixtures and Equipment	5 - 10 Years
Wells, Buildings and Improvements	20 - 50 Years
System and Roadways Infrastructure	20 - 50 Years

### **Compensated Absences**

The Village accrues accumulated unpaid vacation and associated employee-related costs when earned (or estimated to be earned) by the employee. In accordance with GASB Statement No. 16, no liability is recorded for nonvesting accumulation rights to receive sick pay benefits.

All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

#### **Long-Term Obligations**

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenses at the time of issuance.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Notes to the Financial Statements April 30, 2024

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

## ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY – Continued

#### **Deferred Outflows/Inflows of Resources**

Deferred outflow/inflow of resources represents a consumption/acquisition of net assets that applies to a future period and therefore will not be recognized as an outflow of resources (expense)/inflow of resources (revenue) until that future time.

#### **Net Position**

In the government-wide financial statements, equity is classified as net position and displayed in three components:

Net Investment in Capital Assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted – Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislations.

Unrestricted – All other net position balances that do not meet the definition of "restricted" or "net investment in capital assets."

#### **Use of Estimates**

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumption that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

#### NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

#### **BUDGETARY INFORMATION**

Annual budgets are adopted for all funds on a basis consistent with accounting principles generally accepted in the United States of America, except the Police Pension Fund and Special Service Area Custodial Fund. The annual appropriated budget is legally enacted and provides for a legal level of control at the fund level. All annual appropriations lapse at the fiscal year end.

Notes to the Financial Statements April 30, 2024

#### NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY – Continued

#### **BUDGETARY INFORMATION** – Continued

The Board follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. Within or before the first quarter of each fiscal year, the Board of Trustees shall adopt a combined annual budget and appropriation ordinance.
- 2. The budget document is available for public inspection for at least 30 days prior to the Board of Trustees' passage of the annual appropriation ordinance. The Board of Trustees is also required to hold at least one public hearing on the budget.
- 3. Subsequent to the enactment of the annual appropriation ordinance, the Board of Trustees has the authority to make necessary adjustments to the budget. There were no budget adjustments made during the year. By ordinance, any unexpended balance of any items may be expended in making up any deficiency.

#### EXCESS OF ACTUAL EXPENDITURES OVER BUDGET IN INDIVIDUAL FUND

The following fund had an excess of actual expenditures over budget as of the date of this report:

Fund	]	Excess
Tax Increment Financing	\$	98,915

#### **DEFICIT FUND BALANCE**

The following funds had deficit fund balances as of the date of this report:

Fund	Deficit
Golf Course	\$ 45,183
Land and Building	346

#### **NOTE 3 – DETAIL NOTES ON ALL FUNDS**

#### **DEPOSITS AND INVESTMENTS**

The Village maintains a cash and investment pool that is available for use by all funds except the pension trust funds. Each fund type's portion of this pool is displayed on the financial statements as "cash and investments." In addition, investments are separately held by several of the Village's funds. The deposits and investments of the pension trust funds are held separately from those of other funds.

Permitted Deposits and Investments – Statutes authorize the Village to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, obligations of States and their political subdivisions, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services, and Illinois Funds.

Notes to the Financial Statements April 30, 2024

#### NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

#### **DEPOSITS AND INVESTMENTS** – Continued

The Illinois Funds is an investment pool managed by the Illinois State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. The Illinois Funds is not registered with the SEC as an investment company. Investments in Illinois Funds are valued at the share price, the price for which the investment could be sold.

#### Village

*Deposits*. At year-end, the carrying amount of the Village's deposits for governmental and business-type activities totaled \$711,252 and the bank balances totaled \$762,494. In addition, the Village has \$4,236,998 invested in the Illinois Funds at year-end, which is measured at net asset value per share as determined by the Pool.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with the Village's investment policy, the Village limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for cash requirements for ongoing operations in shorter term securities, money market funds or similar investment pools. The Village's investment in the Illinois Funds has an average maturity of less than one year.

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Village's policy limits its exposure to credit risk by limiting investments to the safest types of securities, prequalifying the financial institution, intermediaries and advisors with which the Village will conduct business; and diversifying the investment portfolio so that potential loss on individual securities will be minimized. The Village's investment in the Illinois Funds is rated AAAmmf by Fitch.

Custodial Credit Risk. In the case of deposits, this is the risk that in the event of a bank failure, the Village's deposits may not be returned to it. The Village's investment policy requires that all deposits in excess of federal depository insurance limits be secured by some form of collateral held by a third party in the Village's name. At year-end, the entire amount of the bank balance of deposits was covered by federal depository or equivalent insurance.

For an investment, this is the risk that in the event of the failure of the counterparty, the Village will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Illinois Funds is not subject to custodial credit risk.

Concentration Risk. This is the risk of loss attributed to the magnitude of the Village's investment in a single issuer. At year-end, the Village does not have any investments over 5 percent of the total cash and investment portfolio (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments).

Notes to the Financial Statements April 30, 2024

#### NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

#### **DEPOSITS AND INVESTMENTS** – Continued

#### **Police Pension Fund**

The Illinois Police Officers Pension Investment Fund (IPOPIF) is an investment trust fund responsible for the consolidation and fiduciary management of the pension assets of Illinois suburban and downstate police pension funds. IPOPIF was created by Public Act 101-0610, and codified within the Illinois Pension Code, becoming effective January 1, 2020, to streamline investments and eliminate unnecessary and redundant administrative costs, thereby ensuring assets are available to fund pension benefits for the beneficiaries of the participating pension funds. Participation in IPOPIF by Illinois suburban and downstate police pension funds is mandatory. Investments of the Fund are combined in a commingled external investment pool and held by IPOPIF. A schedule of investment expenses is included in IPOPIF's annual comprehensive financial report. For additional information on IPOPIF's investments, please refer to their annual comprehensive financial report, which can be obtained from IFPIF at 456 Fulton Street, Suite 402 Peoria, Illinois 61602 or at <a href="https://www.ipopif.org">www.ipopif.org</a>.

*Deposits*. The Fund retains all its available cash with one financial institution. Available cash is determined to be that amount which is required for the current expenditures of the Fund. The excess of available cash is required to be transferred to IPOPIF for purposes of the long-term investment for the Fund. At year-end, the carrying amount of the Fund's cash on hand totaled \$96,202 and the bank balances totaled \$96,202.

Custodial Credit Risk. In the case of deposits, this is the risk that in the event of a bank failure, the Fund's deposits may not be returned to it. The Fund's investment policy requires pledging of collateral for all bank balances in excess of federal depository insurance. At year-end, the entire carrying amount of the bank balance of deposits is covered by federal depository or equivalent insurance.

*Investments*. At year-end the Fund has \$5,884,547 invested in IPOPIF. The pooled investments consist of the investments as noted in the target allocation table available at <a href="www.ipopif.org">www.ipopif.org</a>. Investments in IPOPIF are valued at IPOPIF's share price, which is the price the investment could be sold. There are no unfunded commitments at year-end. The fund may redeem shares with a seven-calendar day notice. IPOPIF may, at its sole discretion and based on circumstances, process redemption requests with fewer than a seven-calendar day notice. Regular redemptions of the same amount on a particular day of the month may be arranged with IPOPIF.

Investment Policy. IPOPIF's current investment policy was adopted by the Board of Trustees on December 17, 2021. IPOPIF is authorized to invest in all investments allowed by Illinois Compiled Statutes (ILCS). The IPOPIF shall not be subject to any of the limitations applicable to investments of pension fund assets currently held by the transferor pension funds under Sections 1-113.1 through 1-113.12 or Article 3 of the Illinois Pension Code.

#### Rate of Return

For the year ended April 30, 2024, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 9.54%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Notes to the Financial Statements April 30, 2024

## **NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued**

## **CAPITAL ASSETS**

#### **Governmental Activities**

Governmental capital asset activity for the year was as follows:

	Beginning			Ending
	Balances	Increases	Decreases	Balances
Nondepreciable Capital Assets				
Land	\$ 1,964,937	-	-	1,964,937
Depreciable Capital Assets				
Land Improvements	1,178,886	-	-	1,178,886
Furniture, Fixtures and Equipment	2,212,381	182,802	-	2,395,183
Buildings and Improvements	4,651,891	-	-	4,651,891
Roadways Infrastructure	19,270,132	-	-	19,270,132
	27,313,290	182,802	-	27,496,092
Less Accumulated Depreciation				
Land Improvements	761,929	28,863	-	790,792
Furniture, Fixtures and Equipment	1,505,462	137,074	-	1,642,536
Buildings and Improvements	392,509	85,553	-	478,062
Roadways Infrastructure	13,111,477	433,238	-	13,544,715
	15,771,377	684,728	-	16,456,105
Total Net Depreciable Capital Assets	11,541,913	(501,926)		11,039,987
Total Net Capital Assets	13,506,850	(501,926)	-	13,004,924

Depreciation expense was charged to governmental activities as follows:

General Government	\$ 30,375
Public Safety	38,334
Highways and Streets	580,971
Parks and Buildings	 35,048
	 684,728

Notes to the Financial Statements April 30, 2024

#### **NOTE 3 – DETAIL NOTES ON ALL FUNDS** – Continued

#### **CAPITAL ASSETS** – Continued

### **Business-Type Activities**

Business-type capital asset activity for the year was as follows:

	Beginning			Ending
	Balances	Increases	Decreases	Balances
Nondepreciable Capital Assets				
Land	\$ 226,000	-	-	226,000
Depreciable Capital Assets				
Wells, Buildings and Improvements	3,394,817	-	-	3,394,817
System Infrastructure	11,269,581	-	-	11,269,581
	14,664,398	-	-	14,664,398
Less Accumulated Depreciation				
Wells, Buildings and Improvements	1,806,664	79,356	-	1,886,020
System Infrastructure	4,972,186	332,888	-	5,305,074
	6,778,850	412,244	-	7,191,094
Total Net Depreciable Capital Assets	7,885,548	(412,244)	-	7,473,304
Total Net Capital Assets	8,111,548	(412,244)	-	7,699,304

Depreciation expense of \$412,244 was charged to the Waterworks and Sewerage Fund.

#### **INTERFUND TRANSFERS**

Transfers are used to move unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. Interfund transfers for the year consisted of the following:

Transfer In	Transfer In Transfer Out		
	~ .	<b>.</b>	
Special Service Area	General	\$ 1,029,508	
Land and Building	General	127,744	
Waterworks and Sewerage	General	241,426_	
		1,398,678	

Notes to the Financial Statements April 30, 2024

#### NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

#### INTERFUND BALANCES

Interfund balances are (1) advances in anticipation of receipts to cover temporary cash shortages and (2) from the time lag between when transactions are recorded in the accounting system and payments between funds are made. The composition of interfund balances as of the date of this report, is as follows:

Receivable Fund	Payable Fund		Amount	
General	Golf Course	\$	45,183	(1)
Motor Fuel Tax	General	φ	332,384	` /
Tax Increment Financing	General		16,437	(2)
Special Service Area - Capital Projects	General		1,014,583	(2)
Waterworks and Sewerage	General		1,000	(2)
Police Pension	General		254,294	(2)
Special Service Area - Capital Projects	Special Service Area - Custodial		2,994	(2)
		_	1,666,875	=

#### LEASE RECEIVABLE

The Village is a lessor on the following lease at year end:

Lease	Start Date	Start Date	Payments	Interest Rate
	5/1/2000	5 /1 /2 0 2 5	<b>\$216</b>	0.42.60/
E-Vergent Water Tower	5/1/2022	5/1/2025	\$316 per month	0.426%

During the fiscal year, the Village has recognized \$4,207 of lease revenue.

The future principal and interest lease payments as of the year-end were as follows:

Fiscal		
Year		
Ending	Principal	Interest
2025	\$ 4,101	12
2026	 633	-
	4,734	12

#### PROPERTY TAXES

Property taxes for 2023 attach as an enforceable lien on January 1, on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by the County and are payable in two installments, on or about June 1 and September 1. The County collects such taxes and remits them periodically. The allowance for uncollectible taxes has been stated at 0.5% of the tax levy, to reflect actual collection experience.

Notes to the Financial Statements April 30, 2024

#### **NOTE 3 – DETAIL NOTES ON ALL FUNDS** – Continued

#### **LONG-TERM DEBT**

## **General Obligation Bonds**

The Village issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds are capital-related debt. General obligation bonds are direct obligations and pledge the full faith and credit of the Village. General obligation bonds currently outstanding are as follows:

Issue	Fund Debt Retired by	Beginning Balances	Issuances	Retirements	Ending Balances
General Obligation Alternate Revenue Source Refunding Bonds of 2017 - Due in annual installments of \$100,000 to \$115,000 plus interest at 1.60% to 2.50% through February 1, 2027.	General	\$ 440,000	-	105,000	335,000
General Obligation Alternate Revenue Source Refunding Bonds of 2018 - Due in annual installments of \$45,000 to \$90,000 plus interest at 2.25% to 4.00% through February 1, 2038.	Golf Course	1,005,000	-	50,000	955,000
General Obligation W&S Refunding Alternate Revenue Source Refunding Bonds of 2018 - Due in annual installments of \$170,000 to \$225,000 plus interest at 4.00% through February 1, 2027.	Waterworks and Sewerage	855,000	-	205,000	650,000
General Obligation Refunding Alternate Revenue Source Refunding Bonds of 2020A - Due in annual installments of \$110,000 to \$230,000 plus interest at 2.00% to 4.00% through February 1, 2045.	General	3,570,000	-	110,000	3,460,000

Notes to the Financial Statements April 30, 2024

## NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

## **LONG-TERM DEBT** – Continued

## General Obligation Bonds - Continued

	Fund Debt	Beginning			Ending
Issue	Retired by	Balances	Issuances	Retirements	Balances
General Obligation W&S Refunding Alternate Revenue Source Refunding Bonds of 2020B - Due in annual installments of \$25,000 to \$235,000 plus interest at 2.00% to 4.00% through February 1, 2040.	Waterworks and Sewerage	\$ 2,600,000 8,470,000	<u>-</u>	<del>-</del> 470,000	2,600,000 8,000,000

## **Long-Term Liability Activity**

Changes in long-term liabilities during the fiscal year were as follows:

					Amounts
			Ending	Due within	
Type of Debt	Balances	Balances Additions		Balances	One Year
Communicated Activities					
Governmental Activities					
Compensated Absences	\$ 37,099	9,298	18,596	27,801	27,801
Net Pension Liability - IMRF	484,476	80,774	-	565,250	-
Net Pension Liability - Police	2,902,997	-	314,585	2,588,412	-
Total OPEB Liability - RBP	445,189	-	3,948	441,241	16,432
General Obligation Bonds	5,015,000	-	265,000	4,750,000	280,000
Plus: Premium on Bonds	148,951	-	6,771	142,180	6,771
	9,033,712	90,072	608,900	8,514,884	331,004
Business-Type Activities

General Obligation Bonds	3,455,000	-	205,000	3,250,000	210,000
Plus: Premium on Bonds	93,125	-	13,124	80,001	13,124
	3,567,088	1,281	218,124	3,350,245	223,124

Notes to the Financial Statements April 30, 2024

#### **NOTE 3 – DETAIL NOTES ON ALL FUNDS** – Continued

#### **LONG-TERM DEBT** – Continued

### **Long-Term Liability Activity** – Continued

For governmental activities, the compensated absences, the net pension liabilities, and the total OPEB liability are generally liquidated by the General Fund. The General and Golf Course Funds make payments on the general obligation bonds. For business-type activities, the Waterworks and Sewerage Fund makes payments on the general obligation bonds and the net pension liability.

## **Debt Service Requirements to Maturity**

The annual debt service requirements to maturity, including principal and interest, are as follows:

	(	Governmental Activities		Business-Type Activities		
		General		General		
Fiscal	<b>Obligation Bonds</b>		Obligation Bonds			
Year		Principal	Interest	Principal	Interest	
2025	\$	280,000	166,399	210,000	109,900	
2026		285,000	158,713	240,000	101,500	
2027		290,000	150,467	250,000	92,400	
2028		185,000	143,295	160,000	82,900	
2029		185,000	138,635	165,000	79,700	
2030		195,000	131,475	170,000	73,100	
2031		200,000	123,675	180,000	66,300	
2032		210,000	115,675	185,000	59,100	
2033		220,000	107,275	190,000	51,700

Notes to the Financial Statements April 30, 2024

#### NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

#### **LONG-TERM DEBT** – Continued

#### **Legal Debt Margin**

Chapter 65, Section 5/8-5-1 of the Illinois Compiled Statutes provides "...no municipality having a population of less than 500,000 shall become indebted in any manner or for any purpose, to an amount, including existing indebtedness in the aggregate exceeding 8.625% on the value of the taxable property therein, to be ascertained by the last assessment for state and county purposes, previous to the incurring of the indebtedness or, until January 1, 1983, if greater, the sum that is produced by multiplying the municipality's 1978 equalized assessed valuation by the debt limitation percentage in effect on January 1, 1979."

Assessed Valuation - 2023	\$ 287,802,255
Legal Debt Limit - 8.625% of Assessed Value	24,822,944
Amount of Debt Applicable to Limit	
Legal Debt Margin	24,822,944

#### **Non-Commitment Debt**

#### Special Service Area Bonds

Special service area bonds outstanding as of the date of this report totaled \$1,777,000. These bonds are not an obligation of the Village and are secured by the levy of annual tax on the real property within the special service area. The Village is in no way liable for repayment but is only acting as agent for the property owners in levying and collecting the tax, and forwarding the collections to bondholders. Special service area bonds outstanding are comprised of the following as of April 30, 2024:

Special Service Area #27	\$ 300,000
Special Service Area #28	75,000
Special Service Area #32	410,000
Special Service Area #33	 992,000
	 1,777,000

Notes to the Financial Statements April 30, 2024

#### NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

#### NET INVESTMENT IN CAPITAL ASSETS

Net investment in capital assets was comprised of the following as of April 30, 2024:

Governmental Activities	
Capital Assets - Net of Accumulated Depreciation	\$ 13,004,924
Less Capital Related Debt:	
General Obligation Bonds - Net	(4,892,180)
Net Investment in Capital Assets	8,112,744
Business-Type Activities	
Capital Assets - Net of Accumulated Depreciation	7,699,304
Plus: Unamortized Loss on Refunding	77,992
Less Capital Related Debt:	
Alternate Revenue Bonds - Net	(3,330,001)
Net Investment in Capital Assets	4,447,295

#### FUND BALANCE CLASSIFICATIONS

In the governmental funds financial statements, the Village considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The Village first utilizes committed, then assigned and then unassigned fund balance when an expenditure is incurred for purposes for which all three unrestricted fund balances are available.

*Nonspendable Fund Balance*. Consists of resources that cannot be spent because they are either: a) not in a spendable form; or b) legally or contractually required to be maintained intact.

Restricted Fund Balance. Consists of resources that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance. Consists of resources constrained (issuance of an ordinance) to specific purposes by the government itself, using its highest level of decision-making authority, the Board of Trustees; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.

Notes to the Financial Statements April 30, 2024

#### NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

#### **FUND BALANCE CLASSIFICATIONS** – Continued

Assigned Fund Balance. Consists of amounts that are constrained by the Board of Trustees' intent to be used for specific purposes but are neither restricted nor committed. Intent is expressed by a) the Board of Trustees itself or b) a body or official to which the Board of Trustees has delegated the authority to assign amounts to be used for specific purposes. The Village's highest level of decision-making authority is the Board of Trustees, who is authorized to assign amounts to a specific purpose.

*Unassigned Fund Balance*. Consists of residual net resources of a fund that has not been restricted, committed, or assigned within the General Fund and deficit fund balances of other governmental funds.

*Minimum Fund Balance Policy*. The Village's policy manual states that the General Fund should maintain a minimum fund balance equal to 25% to 34% of budgeted operating expenditures.

The following is a schedule of fund balance classifications for the governmental funds as of the date of this report:

		Sp	ecial Reve	nue	Capital 1	Projects

Notes to the Financial Statements April 30, 2024

#### **NOTE 4 – OTHER INFORMATION**

#### **RISK MANAGEMENT**

The Village is exposed to various risks of loss related torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters. The Village has purchased insurance through risk pools and private insurance companies. Risks covered include general liability, workers' compensation and other. During the fiscal year there were no significant reductions in insurance coverage for any category. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years. Premiums paid have been displayed as expenditures in appropriate funds.

#### **CONTINGENT LIABILITIES**

#### Litigation

From time to time, the Village is party to various pending claims and legal proceedings with respect to employment, civil rights, property taxes and other matters. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and the Village attorney that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the Village's financial position or results of operations.

#### **Grants**

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Village expects such amounts, if any, to be immaterial.

Notes to the Financial Statements April 30, 2024

#### **NOTE 4 – OTHER INFORMATION** – Continued

#### EMPLOYEE RETIREMENT SYSTEM – DEFINED BENEFIT PENSION PLANS

The Village contributes to two defined benefit pension plans, the Illinois Municipal Retirement Fund (IMRF), a defined benefit agent multiple-employer public employee retirement system and the Police Pension Plan, a single-employer pension plan. Separate financial statements for the Police Pension Plan can be obtained by writing the Village at 1515 Channel Beach Avenue, Johnsburg, Illinois 60051. IMRF does issue a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole, but not by individual employer. That report may be obtained on-line at <a href="www.imrf.org">www.imrf.org</a>. The benefit, benefit levels, employee contributions, and employer contributions are governed by Illinois Compiled Statutes (ILCS) and can only be amended by the Illinois General Assembly.

The aggregate amount recognized for the two pension plans is:

		Net Pension	Deferred	Deferred
	Expenses	Liability	Outflows	(Inflows)
IMRF	\$ 17,976	585,494	435,918	(57,286)
Police Pension	344,869	2,588,412	1,882,347	(1,906,092)
	362,845	3,173,906	2,318,265	(1,963,378)

#### Illinois Municipal Retirement Fund (IMRF)

#### **Plan Descriptions**

Plan Administration. All employees (other than those covered by the Police Pension Plan) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

Benefits Provided. IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

Notes to the Financial Statements April 30, 2024

#### **NOTE 4 – OTHER INFORMATION** – Continued

#### EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLANS - Continued

#### Illinois Municipal Retirement Fund (IMRF) - Continued

## Plan Descriptions - Continued

Benefits Provided - Continued. IMRF provides two tiers of pension benefits. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired *on or after* January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

*Plan Membership.* As of December 31, 2023, the measurement date, the following employees were covered by the benefit terms:

Inactive Plan Members Currently Receiving Benefits	5
Inactive Plan Members Entitled to but not yet Receiving Benefits	4
Active Plan Members	11
Total	20

Notes to the Financial Statements April 30, 2024

#### **NOTE 4 – OTHER INFORMATION** – Continued

#### EMPLOYEE RETIREMENT SYSTEM – DEFINED BENEFIT PENSION PLANS – Continued

#### Illinois Municipal Retirement Fund (IMRF) – Continued

## **Plan Descriptions** – Continued

*Contributions*. As set by statute, the Village's Regular Plan Members are required to contribute 4.50% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. For the year-ended April 30, 2024, the Village's contribution was 9.25% of covered payroll.

*Net Pension Liability*. The Village's net pension liability was measured as of December 31, 2023. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation performed, as of December 31, 2023, using the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Fair Value
Actuarial Assumptions Interest Rate	7.25%
Salary Increases	2.85 to 13.75%
Cost of Living Adjustments	2.75%
Inflation	2.25%

For non-disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 108.0%) and Female (adjusted 106.4%) tables, and future mortality improvements projected using scale MP-2021. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2021. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2021.

Notes to the Financial Statements April 30, 2024

#### **NOTE 4 – OTHER INFORMATION** – Continued

#### EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLANS - Continued

#### Illinois Municipal Retirement Fund (IMRF) – Continued

#### **Plan Descriptions** – Continued

Actuarial Assumptions – Continued. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

		Long-Term
		Expected Real
Asset Class	Target	Rate of Return
Fixed Income	24.50%	4.75%
Domestic Equities	34.50%	5.00%
International Equities	18.00%	6.35%
Real Estate	10.50%	6.30%
Blended	11.50%	6.05% - 8.65%
Cash and Cash Equivalents	1.00%	3.80%

#### **Discount Rate**

The discount rate used to measure the total pension liability was 7.25%, the same as the prior year valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that Village contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate. Based on those assumptions, IMRF's fiduciary net position was projected to be available to make all project future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

#### **Discount Rate Sensitivity**

The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the net pension liability of the Village calculated using the discount rate as well as what the Village's net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

## Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

For the year ended April 30, 2024, the Village recognized pension expense of \$17,976. At April 30, 2024, the Village reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		Deferred utflows of	Deferred Inflows of	
	<u> </u>	Resources	Resources	Totals
Difference Between Expected and Actual Experience	\$	265,206	(31,229)	233,977
Assumption Changes		20,977	(26,057)	(5,080)
Net Difference Between Projected and Actual				
Earnings on Pension Plan Investments		123,830	-	123,830
Total Expenses to be Recognized in Future Periods		410,013	(57,286)	352,727
Pension Contributions Made Subsequent				
to the Measurement Date		25,905	-	25,905
Total Deferred Amounts Related to IMRF		435,918	(57,286)	378,632

\$25,905 reported as deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date and will be recognized as a reduction of the net pension liability in the reporting year ended April 30, 2025. Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future periods as follows:

	Net	Net Deferred		
Fiscal	O	Outflows		
Year	of R	Lesources		
2025	\$	57,940		
2026		83,494		
2027		115,126		
2028		24,271		
2029		36,445		
Thereafter		35,451

#### **NOTE 4 – OTHER INFORMATION** – Continued

#### EMPLOYEE RETIREMENT SYSTEM – DEFINED BENEFIT PENSION PLANS – Continued

#### **Police Pension Plan**

#### **Plan Descriptions**

Plan Administration. The Police Pension Plan is a single-employer defined benefit pension plan that covers all sworn police personnel. The defined benefits and employee and minimum employer contribution levels are governed by Illinois Compiled Statutes (40 ILCS 5/3-1) and may be amended only by the Illinois legislature. The Village accounts for the Fund as a pension trust fund. The Fund is governed by a five-member pension board. Two members of the Board are appointed by the Village President, one member is elected by pension beneficiaries and two members are elected by active police employees.

Plan Membership. At April 30, 2024, the measurement date, membership consisted of the following:

Inactive Plan Members Currently Receiving Benefits	3
Inactive Plan Members Entitled to but not yet Receiving Benefits	4
Active Plan Members	10
Total	17

*Benefits Provided.* The following is a summary of the Police Pension Plan as provided for in Illinois State Statutes.

The Police Pension Plan provides retirement benefits through two tiers of benefits as well as death and disability benefits. Covered employees hired before January 1, 2011 (Tier 1), attaining the age of 50 or older with 20 or more years of creditable service are entitled to receive an annual retirement benefit of ½ of the salary attached to the rank held on the last day of service, or for one year prior to the last day, whichever is greater. The annual benefit shall be increased by 2.5 percent of such salary for each additional year of service over 20 years up to 30 years, to a maximum of 75 percent of such salary. Employees with at least eight years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit. The monthly benefit of a police officer who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3 percent of the original pension and 3 percent compounded annually thereafter.

Covered employees hired on or after January 1, 2011 (Tier 2), attaining the age of 55 or older with 10 or more years of creditable service are entitled to receive an annual retirement benefit equal to the average monthly salary obtained by dividing the total salary of the police officer during the 48 consecutive months of service within the last 60 months of service in which the total salary was the highest by the number of months of service in that period. Police officer salary for the pension purposes is capped at \$106,800, plus the lesser of ½ of the annual change in the Consumer Price Index or 3 percent compounded. The annual benefit shall be increased by 2.5 percent of such a salary for each additional year of service over 20 years up to 30 years to a maximum of 75 percent of such salary.

Notes to the Financial Statements April 30, 2024

#### **NOTE 4 – OTHER INFORMATION** – Continued

#### EMPLOYEE RETIREMENT SYSTEM – DEFINED BENEFIT PENSION PLANS – Continued

Police Pension Plan - Continued

#### Plan Descriptions - Continued

Benefits Provided – Continued. Employees with at least 10 years may retire at or after age 50 and receive a reduced benefit (i.e., ½ percent for each month under 55). The monthly benefit of a Tier 2 police officer shall be increased annually at age 60 on the January 1<sup>st</sup> after the police officer retires, or the first anniversary of the pension starting date, whichever is later. Noncompounding increases occur annually, each January thereafter. The increase is the lesser of 3 percent or ½ of the change in the Consumer Price Index for the proceeding calendar year.

Contributions. Covered employees are required to contribute 9.91% of their base salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Village is required to contribute the remaining amounts necessary to finance the plan and the administrative costs as actuarially determined by an enrolled actuary. However, effective January 1, 2011, ILCS requires the Village to contribute a minimum amount annually calculated using the projected unit credit actuarial cost method that will result in the funding of 90% of the past service cost by the year 2040. For the year-ended April 30, 2024, the Village's contribution was 58.25% of covered payroll.

*Concentrations*. At year-end, the Police Pension Plan does not have any investments (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments) in any one organization that represent 5 percent or more of net position available for benefits.

#### **Actuarial Assumptions**

The total pension liability was determined by an actuarial valuation performed, as of April 30, 2024, using the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal (Level %)
Asset Valuation Method	Fair Value
Actuarial Assumptions Interest Rate	6.50%
Salary Increases	3.75% to 9.16%
Cost of Living Adjustments	3.25%
Inflation	2.25%

Notes to the Financial Statements April 30, 2024

#### **NOTE 4 – OTHER INFORMATION** – Continued

#### EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLANS - Continued

**Police Pension Plan** – Continued

## **Actuarial Assumptions** – Continued

Mortality rates were based on the Pub-2010 adjusted for Plan Status, Demographics, and Illinois Public Pension Data.

#### **Discount Rate**

The discount rate used to measure the total pension liability was 6.50%, the same as the prior year valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that Village contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all project future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

#### **Discount Rate Sensitivity**

The following is a sensitive analysis of the net pension liability to changes in the discount rate. The table below presents the net pension liability of the Village calculated using the discount rate as well as what the Village's net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

		Current		
	19	% Decrease	Discount Rate	1% Increase
		(5.50%)	(6.50%)	(7.50%)
Net Pension Liability	\$	4,148,046	2,588,412	1,340,241

#### OTHER POST-EMPLOYMENT BENEFITS

#### General Information about the OPEB Plan

*Plan Description*. The Village's defined benefit OPEB plan, Retiree Benefits Plan (RBP), provides OPEB for all permanent full-time general and public safety employees of the Village. RBP is a single-employer defined benefit OPEB plan administered by the Village. Article 11 of the State Compiled Statutes grants the authority to establish and amend the benefit terms and financing requirements to the Village Board. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

Notes to the Financial Statements April 30, 2024

#### **NOTE 4 – OTHER INFORMATION** – Continued

#### **OTHER POST-EMPLOYMENT BENEFITS** – Continued

#### General Information about the OPEB Plan - Continued

Benefits Provided. Eligible retirees may continue coverage into retirement on the Village's Plan on a payall basis. Coverage is also available for eligible dependents on a pay-all basis. Coverage can continue even when an employee becomes Medicare eligible.

*Plan Membership.* As of April 30, 2024, the measurement date, the following employees were covered by the benefit terms:

Inactive Plan Members Currently Receiving Benefits	1
Inactive Plan Members Entitled to but not yet Receiving Benefits	-
Active Plan Members	21
Total	22

### **Total OPEB Liability**

The Village's total OPEB liability was measured as of April 30, 2024 and was determined by an actuarial valuation as of April 30, 2023.

Actuarial Assumptions and Other Inputs. The total OPEB liability in the April 30, 2023 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	3.00%
Salary Increases	4.00%
Discount Rate	4.42%
Healthcare Cost Trend Rates	Initial trend rate of 6.50%, decreasing to an ultimate rate of 4.50% for 2038 and later years
Retirees' Share of Benefit-Related Costs	100% of projected health insurance premiums for retirees

The discount rate was based on the S&P Municipal Bond 20 Year High-Grande Rate Index.

Mortality rates were based on the RP-2014 Combined Annuitant Mortality table for males and females.

Notes to the Financial Statements April 30, 2024

#### **NOTE 4 – OTHER INFORMATION** – Continued

#### **OTHER POST-EMPLOYMENT BENEFITS** – Continued

#### **Change in the Total OPEB Liability**

	Total OPEB Liability
Balance at April 30, 2023	\$ 445,189
Changes for the Year:	
Service Cost	6,870
Interest on the Total Pension Liability	18,092
Changes of Benefit Terms	-
Difference Between Expected and Actual Experience	-
Changes of Assumptions or Other Inputs	(12,478)
Benefit Payments	(16,432)
Other Changes	
Net Changes	(3,948)
Balance at April 30, 2024	441,241

#### Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The discount rate used to measure the total pension liability was 4.42%, while the prior valuation used 4.14%. The following presents the total OPEB liability, calculated using the discount rate, as well as what the total OPEB liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher:

	Current						
	1%	6 Decrease	Discount Rate	1% Increase			
	(3.42%)		(4.42%)	(5.42%)			
Total OPEB Liability	\$	488,771	441,241	401,133			

## Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the total OPEB liability, calculated using a varied Healthcare Trend Rate, as well as what the total OPEB liability would be if it were calculated using a Healthcare Trend Rate that is one percentage point lower or one percentage point higher:

Notes to the Financial Statements April 30, 2024

## OTHER SUPPLEMENTARY INFORMATION

Other supplementary information includes financial statements and schedules not required by the GASB, nor a part of the basic financial statements, but are presented for purposes of additional analysis.

#### Such schedules include:

- Budgetary Comparison Schedules Major Governmental Funds General Fund
   Special Service Area - Capital Projects Fund
   Land and Building - Capital Projects Fund
- Budgetary Comparison Schedule Enterprise Fund Waterworks and Sewerage
- Consolidated Year-End Financial Report

#### INDIVIDUAL FUND SCHEDULES

#### **GENERAL FUND**

The General Fund is used to account for all financial resources except those required to be accounted for in another fund.

#### SPECIAL REVENUE FUND

The Special Revenue Funds are created to account for the proceeds of specific revenue sources (other than fiduciary funds or capital project funds) that are used to account for a report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes.

#### **Motor Fuel Tax Fund**

The Motor Fuel Tax Fund is used to account for the maintenance and construction of streets and roads as approved by the Illinois Department of Transportation.

#### Golf Course Fund

The Golf Course Fund is used to account for revenue received, per contractual agreement, from the management company responsible for operations at the Village owned Chapel Hill Golf Course. Such revenue is used to pay for debt retirement and improvement projects at the Chapel Hill Golf Course.

#### **Tax Increment Financing Fund**

The Tax Increment Financing Fund is used to make annual payments to GenCap Johnsburg 73, LLC, the developer of the Bush School Redevelopment Project, to reimburse Project TIF Expenses in accordance with the terms of an agreement entered into between the Village and GenCap Johnsburg 73, LLC on April 7, 2020.

#### **CAPITAL PROJECTS FUNDS**

The Capital Projects Funds are created to account for all resources used for the acquisition of capital facilities by a governmental unit except those financed by Proprietary Funds.

#### **Special Service Area Fund**

The Special Services Area Fund is used to account for the capital related costs for the areas designated as Special Service Areas.

#### Land and Building Fund

The Land and Building Fund is used to account for the proceeds of specific revenue for the Village's land and building acquisition.

#### INDIVIDUAL FUND SCHEDULES

#### ENTERPRISE FUND

The Enterprise Funds are created to account for operations that are financed and operated in a manner similar to private business enterprises where the intent is that costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where it has been decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purpose. The Village's enterprise fund is a non-major fund.

#### Waterworks and Sewerage Fund

The Waterworks and Sewerage Fund is used to account for the provision of potable water and wastewater treatment services to the residents of the Village. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations and maintenance, financing and related debt service, billing and collection.

#### FIDUCIARY FUNDS

#### PENSION TRUST FUND

#### **Police Pension Fund**

The Police Pension Fund is used to account for the accumulation of resources to be used for retirement annuity payments to employees on the police force at appropriate amounts and times in the future. Resources are contributed by employees at rates fixed by law and by the Village at amounts determined by an annual actuarial study.

#### **CUSTODIAL FUND**

#### **Special Service Areas Fund**

The Special Service Areas Fund is used to account for the collection of property taxes within the Special Service Areas and payments of related special service area debt.

# STATISTICAL SECTION (Unaudited)

This part of the annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Village's overall financial health.

#### Financial Trends

These schedules contain trend information to help the reader understand how the Village's financial performance and well-being have changed over time.

#### Revenue Capacity

These schedules contain information to help the reader assess the Village's most significant local revenue sources.

#### **Debt Capacity**

These schedules present information to help the reader assess the affordability of the Village's current levels of outstanding debt and the Village's ability to issue additional debt in the future.

#### Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the Village's financial activities take place.

#### **Operating Information**

These schedules contain service and infrastructure data to help the reader understand how the information in the Village's financial report relates to the services the Village provides and the activities it performs.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASE ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

April 24, 2025

The Honorable Village President Members of the Board of Trustees Village of Johnsburg, Illinois

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Johnsburg, Illinois (the Village), as of and for the year ended April 30, 2024, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements, and have issued our report thereon dated April 24, 2025.

#### **Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Village's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, we do not express an opinion on the effectiveness of the Village's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Village's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Village of Johnsburg, Illinois April 24, 2025

#### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Village's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Village's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Village's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
